

Index du plan du village (au 11 mars 2018)

Les dates données indiquent le début renseigné d'une présence à l'adresse indiquée. Comme les Fleurusiens, dont près de 2 sur 3 étaient locataires, se déplaçaient souvent dans le village, il est impossible, vu les données disponibles, de toujours indiquer la fin exacte de cette présence. Les propriétaires de maisons qui n'y résident pas sont indiqués en bleu sur le plan. Les renseignements là-dessus sont pauvres, étant donné que les registres d'hypothèques n'ont pas été rapatriés.

Parmi les professions indiquées, « cultivateur », « journalier » et « fermier » sont omis, à peu près tout le monde étant agriculteur d'une façon ou d'une autre.

Lettres et chiffres indiquent l'îlot et le bâtiment, ou le site, à l'intérieur de l'îlot : donc Q3 = îlot Q, bâtiment ou site 3.

Dans le cas d'appartements, les chiffres indiquent par un point la présence d'autres locataires (le numéro de l'appartement étant choisi de façon aléatoire). Donc Q3.2 = deuxième locataire sur la liste Q3 paraphée sur le plan à la date en question.

Selon la pratique de l'époque, les femmes ne sont pas nommées, à moins d'être veuves, séparées, ou célibataires vivant seules sans parents. Renseignements sur demande.

Comme dans le texte du livre, les prénoms espagnols ou allemands sont maintenus jusqu'à la naturalisation.
